Docs for NetApp SaaS Backup for Salesforce 1

Docs for NetApp SaaS Backup for Salesforce

We've added docs for a new NetApp service. Documentation for NetApp SaaS Backup for Salesforce is now available on docs.netapp.com.

NetApp SaaS Backup is a secure, cloud-native service that backs up your Salesforce data to Amazon S3 storage. SaaS Backup helps guard your data from threats or accidental deletion.

Go to the [NetApp SaaS Backup for Salesforce documentation](#) to learn how to get started.

The screenshot shows the NetApp Cloud Docs interface. The top navigation bar includes the NetApp logo, 'Cloud Docs', a search bar, and a language selector set to 'English'. The left sidebar contains a table of contents with items like 'Release Notes', 'Overview', 'Getting started', 'Managing SaaS Backup for Salesforce' (which is expanded to show 'Backing up data', 'Restoring data', 'Reauthenticating', 'Canceling a job', 'Viewing data', 'Providing feedback', 'Where to get help and find more information', and 'Legal Notices'), and 'Release Notes'.

The main content area is titled 'Backing up data' in green, with a date of '06/04/2019' and a 'Contributors' link. It includes buttons for 'Edit on GitHub' and 'Request doc changes'. The text states: 'You can use SaaS Backup for Salesforce to backup and restore your data.' Below this is a section titled 'Performing an immediate backup' in green, followed by the text: 'You can perform an immediate backup of your production or sandbox instance any time you deem necessary for data protection.' A note specifies: 'Note: For the trial version of SaaS Backup for Salesforce, you can only perform three immediate backups per day.' The 'Steps' section lists: '1. From the left-pane navigation, click **Services**' (with a screenshot of the 'SERVICES' button) and '2. Click **Production Instances** or **Sandbox Instances**' (with a screenshot of the 'Production Instances' button and a 'STATUS ACTIVE' indicator).

On the right side, under 'On this page:', there are links for 'Performing an immediate backup' and 'Backup policies'.
